

No. 301 – Hair colour chart (Fischer-Saller type)

The hair colour chart consists of thirty natural hair patterns. Of these, twenty-four samples are labeled with the letters of the alphabet; J and Z are not used. These samples are summarized under the designations white-blonde or ash-blonde (A), fair-blonde (B-E), blonde (F-L), dark blonde (M-O), brown (P-T), brown-black (U-Y). An additional scale consists of six gradations of red (I-IV) and red-blonde (V-VI). The scale is easy to handle, but the determination should preferably be done in daylight.

Caution: For cleaning please do not use acetone or acetone-containing cleaning agents.
